Booking Process

How to Reserve a Parking Space

1. Ask the chatbot about availability for your preferred zone, floor, or vehicle type.
2. Provide your name, surname, car/vehicle number, and the reservation period (start and end time).
3. Your request is sent to a facility administrator for approval.
4. Once approved, you will receive a confirmation with your assigned spot.
5. Arrive within 30 minutes of your reservation start time - unclaimed reservations are released after this window.

Monthly passes can be requested the same way by specifying a period of 30 days or more; pricing is discounted automatically for such requests.
